

MODERNIZING RACK & PINION ELEVATOR PERFORMANCE WITH AMERICAN CRAFTSMANSHIP

Is your elevator system facing challenges due to aging Rack and Pinion elevator components? Have you experienced the frustration of waiting months for replacements from Europe? McDonough Elevator introduces SmartRack[™], the solution to modernize and upgrade your elevator system with our American-made elevator controller.

UPGRADE TO SMARTRACK FOR MODERNIZATION AND RELIABILITY

- Replace your European OEM electrical controller with an American-made alternative.
- Shorter lead times for upgrades compared to acquiring new European equipment.
- Enhance reliability and efficiency while setting new performance standards.

AMERICAN CRAFTSMANSHIP

- Crafted with over forty years of expertise in rack and pinion technology.
- Precision and pride in every SmartRack unit, manufactured in our Houston shop.
- Seamlessly blends smoothness and efficiency with durability for any environment.

QUALITY CONTROLLED REBUILD OPTIONS

- Choose from a range of modernization options.
- Upgrade your electrical system with SmartRise.
- Opt for a complete refurbishment, extending your elevator's life by over 20 years.

EMPOWERING TECHNICIANS WITH ADVANCED TECHNOLOGY

- Detailed data readouts and error reporting revolutionize troubleshooting.
- Transition to advanced microprocessors for quicker electrical issue resolution.
- Owners can effectively communicate breakdown issues with technicians, minimizing downtime.

INVEST IN SMARTRACK: ELEVATE WITH AMERICAN CRAFTSMANSHIP!

- Made in the USA
- Compatible with Most R&P Elevators
- 24/7 Technical Support
- Non-Proprietary Components

Escape the limitations of European OEMs and embrace the future of elevators with SmartRack™.
